**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

Application of Southern California Edison Company (U-338E) for Approval of Large Power Dynamic Pricing Rate.	Application 24-06-014 (Filed September 30, 2024)
And Related Matter.	Application 24-12-008

MOTION FOR PARTY STATUS OF THE VEHICLE GRID INTEGRATION COUNCIL

Pursuant to Rule 1.4 of the California Public Utilities Commission’s (“Commission”) Rules of Practice and Procedure, the Vehicle-Grid Integration Council (“VGIC”) respectfully moves for party status in the above-referenced proceeding.

I. DESCRIPTION OF VGIC.

VGIC is a 501(c)6 member-based advocacy group committed to advancing the role of EVs and vehicle-grid integration (“VGI”). through policy development, education, outreach, and research. VGIC supports the transition to a decarbonized transportation and electric sector by ensuring the value from flexible EV charging and discharging is recognized and compensated to achieve a more reliable, affordable, and efficient electric grid. VGIC’s members include automotive original equipment manufacturers (“OEMs”), EV service providers (“EVSPs”), distributed energy resource (“DER”) aggregators, publicly-owned electric utilities, and Community Choice Aggregators.

II. INTEREST IN THIS PROCEEDING.

In this consolidated application, Southern California Edison (“SCE”) proposes new dynamic rates in compliance with the Commission’s Rulemaking 22-07-005 and California Energy

Commission’s (“CEC”) Load Management Standards. EV customers are interested in participating in dynamic import and export rates and can shift load and exports in response to the dynamic price signals SCE is proposing.

VGIC intends to participate in this proceeding to ensure that SCE’s proposed rate designs send accurate and actionable price signals to EV customers. VGIC will offer factual contentions related to how specific elements of SCE’s dynamic rates impact customer behavior, managed charging adoption, and the ability of EVs to provide load flexibility and grid services. VGIC will also provide legal and policy arguments regarding the alignment of SCE’s proposals with statutory and regulatory objectives, including to maximize the use of VGI strategies and encourage the deployment of EVs.¹ These contentions are directly pertinent to the issues presented in the application.

III. NOTICE.

Service of notices, orders, and other correspondence in this proceeding should be directed to VGIC at the address set forth below:

Zach Woogen
Executive Director
Vehicle-Grid Integration Council
1401 21st St., Suite 5409
Sacramento, California 95811
Telephone: (510) 665-7811
Email: vgicregulatory@vgicouncil.org

¹ See *i.e.*, SB 676 (Bradford, 2019), D.20-12-029.

IV. CONCLUSION.

VGIC's participation in this proceeding will not prejudice any party and will not delay the schedule or broaden the scope of the issues in the proceeding. For the reasons stated above, VGIC respectfully requests that the Commission grant this Motion for Party Status filing.

Respectfully submitted,

/s/ Zach Woogen
