

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF NEVADA**

Application of Nevada Power Company d/b/a
NV Energy, filed under Advice Letter No. 562,
to revise Tariff No. 1-B to modify Generating
Facility Interconnections Rule No. 15 pursuant
to the Order issued in Docket No. 24-05041

Docket No. 25-12031

**PETITION FOR LEAVE TO INTERVENE OF THE VEHICLE-GRID INTEGRATION
COUNCIL**

Pursuant to Nevada Administrative Code (“NAC”) sections 703.580, 703.585, 703.590, and 703.595, the Vehicle-Grid Integration Council (“VGIC”) respectfully petitions for the Commission to grant leave for VGIC to intervene in the above-referenced proceeding. VGIC requests to be placed on the service list for this proceeding and to receive all future notices and pleadings in this matter electronically at the following addresses:

Vehicle-Grid Integration Council

I. DESCRIPTION OF VGIC.

VGIC is a national 501(c)6 member-based advocacy group committed to advancing the role of vehicle-grid integration (“VGI”) through policy development, education, and research. VGIC aims to ensure the value from flexible EV charging and discharging is recognized and compensated to achieve a more reliable, affordable, and efficient electric grid. VGIC’s members include automotive original equipment manufacturers (“OEMs”), EV charging station manufacturers, EV charging site developers, distributed energy resource (“DER”) aggregators, EV

charging station installers, operations, and maintenance providers, EV and charging station hardware suppliers, and publicly-owned electric utilities.

II. INTEREST IN THIS PROCEEDING.

As it relates to the requirements in NAC 703.595(2)(a)-(c) and NAC 703.580, VGIC's membership includes companies that deploy residential and non-residential bidirectional EV charging systems, sometimes referred to as "Vehicle-to-Grid" or "V2G" systems, including Ford, General Motors, Tesla, and Nissan. These members have a direct and substantial interest in the outcome of this proceeding, as NV Energy proposes revisions to its interconnection regulation, Rule No. 15. The proposed Rule No. 15 revisions detail the interconnection processes and requirements for bidirectional charging systems in its service territory. Given that VGIC's member companies will conform to these interconnection rules, the outcomes of this proceeding have a direct, material impact on the technology choices, development and deployment costs, and related business decisions of VGIC's members and, in turn, VGIC's members' customers.

VGIC intends to participate in this proceeding to ensure that the proposed Rule No. 15 adequately accounts for impacts on VGIC's members. This representation of member interests before a Public Utility Commission proceeding is a core function of VGIC's day-to-day policy development and engagement operations. VGIC's unique interests in bidirectional charging solutions will not be adequately represented by any other party in this proceeding, and VGIC attests that its intervention will not unduly broaden the issues in this proceeding.

VGIC will offer factual contentions related to how specific elements of NV Energy's proposed Rule No. 15 revisions will impact vendor and customer behavior in support of grid safety and reliability. These contentions are directly pertinent to the issues presented in the proceeding.

III. CONCLUSION.

VGIC's participation in this proceeding will not prejudice any party and will not delay the schedule or broaden the scope of the issues in the proceeding. For the reasons stated above, VGIC respectfully requests that the Commission grant this Petition for Leave to Intervene.

Respectfully submitted,

/s/ Zach Woogen

Zach Woogen

Executive Director

VEHICLE-GRID INTEGRATION COUNCIL

Date: February 4, 2026

CERTIFICATE OF SERVICE

I hereby certify that I have on this date caused the above “**PETITION FOR LEAVE TO INTERVENE OF THE VEHICLE-GRID INTEGRATION COUNCIL**” to be served pursuant to the laws of the State of Nevada by electronic mail (e-mail) to all persons with a valid e-mail address on the below service list.

Executed February 4, 2026 at Sacramento, California
