

BEFORE THE NEW MEXICO PUBLIC REGULATION COMMISSION

IN THE MATTER OF THE POTENTIAL
ADOPTION OF AN INTERCONNECTION RULE
APPLICABLE TO RURAL ELECTRIC
COOPERATIVES

)
) Docket No. 25-00008-UT
)

**REPLY COMMENTS OF VEHICLE-GRID INTEGRATION COUNCIL
ON PROPOSED RULE 17.9.575 NMAC**

Filed: April 27, 2026

I. INTRODUCTION.

The Vehicle-Grid Integration Council (“VGIC”) respectfully provides its reply comments on the Commission’s Order Issuing Notice of Proposed Rulemaking, filed February 13, 2026, proposing the adoption of a new interconnection rule at 17.9.575 NMAC applicable to rural electric cooperatives (“Proposed Rule”) and corresponding amendments to the existing interconnection rule at 17.9.568 NMAC. VGIC timely submitted its initial comments on April 13, 2026.

**II. INITIAL COMMENTS SHOW GENERAL CONSENSUS AMONG PARTIES
THAT THE BLANKET EXCLUSION OF BIDIRECTIONAL CHARGING
SYSTEMS FROM THE PROPOSED RULE SHOULD BE REMOVED.**

In initial comments, the Renewable Energy Industries Association of New Mexico (“REIA-NM”), Nuvve Holding Corp. (“Nuvve”), and – most notably – the New Mexico Rural Electric Cooperative Association (“NMRECA”) emphasize that bidirectional charging systems should be treated as other battery energy storage systems for interconnection purposes and, as a result, should not be excluded from the Proposed Rule. VGIC commends NMRECA for its specific comment to “delete the last sentence, ‘DER does not include vehicle-to-grid functionality[,]’ from the definition of Distributed Energy Resource (DER)” and for recognizing the peak load reduction potential of electric vehicles.

Given this broad consensus and NMRECA's recommendation, VGIC reiterates its initial recommendation to remove the blanket prohibition on bidirectional charging systems from the Proposed Rule. We also respectfully request that the utilities consider the supplemental guidance we provided in our initial comments, whether by formally adopting it in the Proposed Rule or by adopting it informally for internal use.

III. CONCLUSION.

VGIC appreciates the opportunity to provide these reply comments and looks forward to further collaboration with stakeholders on this important initiative.
